

PROGRAMMING ASSIGNMENT # 8

Spring Semester

CSC 36000

April 27, 2015

PROGRAM STATEMENT: Rewrite **Program 7**. In the rewrite you are to employ right-threads to build and traverse the Binary Tree using "InOrder Traversal". All other aspects of the original program remain the same. **I DO NOT RECOMMEND THAT YOU WRITE THIS PROGRAM BEFORE YOU ARE FINISHED WRITING PROGRAM 7.** Finish program 7 then modify it as indicated above. This program is due on **May 11, 2015**.

INPUT: Same format as for **Program 7**. However, the data file name is **thread_in.txt**. Use this file when you run your program. Also note that the data is different.

PROCESSING: Same as for **Program 7** except you employ "right-threads" to build and traverse the tree.

OUTPUT: Same as for **Program 7**.

" An error doesn't become a **MISsTeAK**
until you refuze to corect it ! "
